## SUMMARY

Being responsible, able to collaborate effectively, and a fast learner are some of my strengths. I have a keen interest in the field of information technology, especially cyber security. I have participated in several study groups on cyber security and learned a lot from them. I also have internship experience in project management, which has equipped me with the skills to handle projects effectively. Additionally, I have honed my soft skills through participation in various committees and joining organizations. This makes me a reliable individual.

---

## EXPERIENCE

### Staff of Interest And Talent

#### Himpunan Mahasiswa S1 Informatika

June 2024 – Present, Telkom University

- Coordinator for the Informatics Band Community (Rythmics)
- Managing all relation between the Informatics Band Community (Rythmics) and Informatics Student Association (HIMA IF)

### Study Group Participant (Digilearn)

#### Multimedia, Big Data, and Cyber Security Lab

May 2024 – June 2024, Telkom University

- Learn About Cyber Security : Introduction to Cyber Security, Learn how to use Virtual Machine, Learn about Linux Operating System, Reconnaissance & Information Gathering
- Learn about Geographic Information System : Introduction to ArcGIS, make a mobile app UI using figma, make a 3d objects using blender, make AR & VR using unity
- Learn about Big Data : Introduction to Big Data, Preprocessing and Data Cleansing, Data Visualization
- Learn About Game Tech : Design objects using Adobe Illustrator, Learn to create movement using unity

### Study Group Participant

#### Internet of Things LAB TEL-U

April 2024 – June 2024, Telkom University

- Learn about the basic of arduino

### Project Management Intern

#### Mobile Innovation Laboratory

December 2023 – March 2024, Telkom University

- Providing business ideas.
- Creating Product Requirements Document and Business Model Canvas.
- Leading and directing the work of technical staff until the project is successfully completed.
- Acting as a liaison between business and technical aspects of the project.

### Logistics

#### Perseketuan Mahasiswa Kristen

November 2023 – December 2023, Telkom University

- Prepare all the necessary equipment and items, as well as secure the venue permits.

### Study Group Participant

#### Security Laboratory

October 2023 – November 2023, Telkom University

- Learned about basic linux & password cracking
- Learned about web exploit (cookie manipulation) using ffuf & burpsuite
- Learned about Social Engineering techniques using tools like Seeker, facad1ng & Storm-Breaker
- Learned about digital forensic

### Public Relation

#### Carnival 2023 – HIMA IF

October 2023 – November 2023, Telkom University

- Carnival is an event organized by the HIMA IF to celebrate the graduation ceremony and show appreciation to the graduates.
- My task is to gather as many informatics students from Telkom University to participate in this event.

### Hacker Class Participant

#### Forensic And Security Laboratory

June 2023 – July 2023, Telkom University

- Short course to prepare for CTF competition
- Learned and practiced about Web Exploitation, Cryptography, Reverse Engineering, Binary Exploitation, and Penetration Testing

---

## EDUCATION

### Bachelor of Informatics

**Software Engineering**

SMK Telekomunikasi Telesandi · Bekasi, Indonesia · 2022

---

**CERTIFICATIONS**

---

**R Fundamental for Data Science**

DQLab · 2021

**Python Fundamental for Data Science**

DQLab · 2021

**Fundamental SQL Using SELECT Statement**

DQLab · 2021

---
